Progress Report (1-2 pages) + attached introduction

[1] Summarize work accomplished in fall/previous term. Include principal methods and technique(s) (two-three paragraphs).

[2] Provide a timeline of remaining tasks with specific dates. Include remaining lab work, modeling, analysis, writing, etc. (bullet points with brief descriptions of tasks).

[3] Attach a copy of your thesis introduction draft. Your introduction should include a summary of your thesis topic, a description of your goals/objectives, and a literature review.
